

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

I have to pay for every minute I am on my regular home phone, even if I call across the street. I can not afford to pay for a long distance service fee every month when I don't call out some months. THAT IS THE REASON I HAVE MY TRACFONE. I WOULD NOT BE ABLE TO MAKE MEDICAL APPOINTMENTS, or call my son that lives out of state or my sister that lives out of town.

Keep the USF Fair!

Sincerely,

Suann Lackey

Sincerely,

Suann Lackey
